

RASHEED ISKILU

SENIOR FRONTEND ENGINEER | REACT • NEXT.JS • REACT NATIVE • TYPESCRIPT

Lagos, Nigeria | +234 913 504 2447 | rasheediskilu.dev@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 5+ years of experience building and shipping production web and mobile applications across healthcare, fintech, event ticketing, supply-chain. Strong in React, React Native, Next.js 13–15 and TypeScript, with hands-on delivery of responsive, reusable component systems, complex dashboards, transactional and role-based workflows, REST/GraphQL integrations, real-time updates and automated testing. Experienced with SSR/SSG, state management, frontend performance and maintainability, accessible UI practices, production debugging and cross-functional delivery with Product, Design, Backend and QA teams.

CORE TECHNICAL SKILLS

Frontend: React, Next.js 13–15, TypeScript, JavaScript, HTML5, CSS3, React Native, Expo

Next.js & Architecture: SSR, SSG, reusable component architecture, design-system development, responsive UI, PWA/offline-first patterns

State & Data: Redux Toolkit, RTK Query, TanStack Query, Zustand, Context API, IndexedDB/Dexie

APIs & Realtime: REST APIs, GraphQL, WebSockets, API integration, production troubleshooting

UI, Forms & Styling: Tailwind CSS, Mantine, Shadcn/UI, Chakra UI, Material UI, Styled Components, React Hook Form, Zod

Testing & Delivery: Jest, React Testing Library, Cypress, Detox, Git, code review, CI/CD

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer | Plural Health (Plateaumed Limited)

May 2022 – May 2026

Lagos, Nigeria

- Built and maintained large Next.js/TypeScript healthcare applications spanning EHR/HMIS, pharmacy, insurance, laboratory, inventory, billing, ward/bed management, onboarding, reporting and administration.
- Integrated extensive .NET REST APIs using Redux Toolkit/RTK Query and delivered complex forms and validation flows with React Hook Form and Zod across multi-role clinical workflows.
- Created reusable design-system components, data tables, dashboards, reports, notifications and role-based interfaces, improving consistency, performance and maintainability across the product suite.
- Engineered offline-first pharmacy workflows using IndexedDB/Dexie with local persistence, synchronization, retries and conflict handling to keep critical operations usable during poor connectivity.
- Wrote and maintained unit, integration and end-to-end tests with Jest, React Testing Library and Cypress; reviewed code and mentored engineers on frontend implementation standards.

Frontend Engineer (Contract) | HCSS Technology

2025

Remote

- Built React Native/Expo inventory workflows and a Next.js administration experience for healthcare supply-chain operations covering inbound/outbound stock, replenishment, and dispensing and expiry management.
- Developed reusable TypeScript components, validation, API integrations and CSV/XLSX bulk-upload flows with actionable error feedback and processing-status visibility.
- Contributed to NestJS controllers/services and PostgreSQL database migrations, strengthening end-to-end collaboration between frontend and backend delivery.

Frontend Engineer | Canary Point Holding

Dec. 2020 – April 2022

Remote

- Developed responsive React interfaces for fintech platforms, translating product requirements into reusable, user-friendly components.

- Integrated the frontend with Node.js REST APIs to support customer onboarding, account management and financial transaction workflows.
- Implemented form validation, authentication states, loading indicators and error handling to improve the reliability of critical user journeys.
- Collaborated with backend developers to resolve API integration issues, fix frontend defects and deliver stable features across desktop and mobile devices.

Frontend Developer Trainee | Skillup Africa

May 2020 – Nov. 2020

- Built early production experience across responsive web interfaces, reusable React components, API-connected workflows and collaborative software delivery.

SELECTED PRODUCTION WORK

WEB APPLICATIONS:

- 1. Plural Health Product Suite** — Production healthcare interfaces spanning pharmacy, public product discovery and authenticated clinical/operational workflows. [NeoPharmacy](#) • [Plural Health](#) • [NEO EHR Portal](#)
- 2. Betpikr Customer & Backoffice** — Production betting platform interfaces spanning customer and operational workflows, real-time data, role-based administration and reporting. [View live](#)
- 3. Obafemi Hamzat Website** — Next.js public-facing website; delivered responsive UI, reusable page components and search-engine optimization implementation. [View live](#)
- 4. MCPLambda** — Contributed to a production AI developer platform for deploying and managing MCP servers, including developer-facing dashboards, deployment workflows, gateways, registry and analytics experiences. [View live](#)
- 5. Jetron Ticket** — Contributed to responsive event discovery, organiser onboarding, registration and ticket-management dashboard workflows using React and REST API integrations. [View live](#)
- 6. Homiverse** — Contributed to a production PropTech platform for verified property discovery, roommate matching, property listings, and rental workflows in Nigeria. [View live](#)

MOBILE APPLICATIONS:

- 1. myNeoHealth — Mobile Healthcare Application** — Contributed to a production healthcare mobile app enabling patients to access appointments, medical records, laboratory results, prescriptions, and visit history through secure API-integrated workflows. [View live](#)
- 2. NeoEHR Mobile — Healthcare Application** — Contributed to a production healthcare mobile app used by clinical and administrative professionals, working on patient records, clinical workflows, appointments, pharmacy, investigations, and API-integrated hospital operations. [View live](#)
- 3. VisiLite — Mobile Inventory Application** — Contributed to a production healthcare supply-chain mobile app supporting inventory tracking, shipments, replenishment, dispensing, expiry monitoring, barcode/QR scanning, and API-integrated stock-management workflows. [View live](#)
- 4. Flightly — React Native Travel Booking App** — Built a cross-platform travel-booking application with React Native, Expo and TypeScript, integrating Supabase-backed services and managing Android/iOS build and deployment workflows with EAS. [View live](#)

EDUCATION & CERTIFICATIONS

B.Sc. Political Science | Lagos State University, Lagos, Nigeria | 2014 – 2019

CGPA: 4.05/5.00 | Among the best graduating students

HackerRank Certifications: Problem Solving, JavaScript, React, Node.js
